

# Erratum for Meiresonne et al., “Activity-Related Conformational Changes in D,D-Carboxypeptidases Revealed by *In Vivo* Periplasmic Förster Resonance Energy Transfer Assay in *Escherichia coli*”

Nils Y. Meiresonne,<sup>a</sup> René van der Ploeg,<sup>a\*</sup> Mark A. Hink,<sup>b</sup> Tanneke den Blaauwen<sup>a</sup>

<sup>a</sup>Bacterial Cell Biology and Physiology Swammerdam Institute for Life Sciences, University of Amsterdam, Amsterdam, The Netherlands

<sup>b</sup>Molecular Cytology and Van Leeuwenhoek Centre for Advanced Microscopy, Swammerdam Institute for Life Sciences, University of Amsterdam, Amsterdam, The Netherlands

Volume 8, issue 5, e01089-17, 2017, <https://doi.org/10.1128/mBio.01089-17>. Text S7 and Text S8 in the supplemental material erroneously stated that the mNeongreen gene used was codon optimized for *Escherichia coli*. Instead, it was only changed to alter restriction sites. The files have been corrected.
